SUMMARY

MERN Stack Developer and currently a final-year Computer Science student specializing in AI-powered full-stack web applications. Developed 3 production-style projects spanning 20+ REST API endpoints, JWT-based authentication, and LLM integration. Focused on Generative AI, prompt engineering, and RAG.

EDUCATION

Birla Institute of Applied Sciences — Bhimtal, India

Bachelor of Technology in Computer Science and Engineering — CGPA: 7.3/10 (Expected 2027)

Relevant Coursework: Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks, OOP, Software Engineering

St. Lawrence Sr. Sec. School — Haldwani, Uttarakhand

Senior Secondary (Class XII), CBSE — 86% — 2023

St. Lawrence Sr. Sec. School — Haldwani, Uttarakhand

Secondary (Class X), CBSE — 88% — 2021

EXPERIENCE

Independent Full-Stack Developer — *Project Experience*

- Designed and developed 3 production-style full-stack applications using the MERN stack, REST APIs, JWT authentication, MongoDB, and modern React workflows.
- Built 20+ REST API endpoints, role-based access controls, database schemas, responsive interfaces, and integrated LLM-powered features across resume and e-commerce applications.

PROJECTS

AI Resume Analyzer & Resume Builder | React.js, Node.js, Express.js, MongoDB, OpenRouter, REST APIs

- Built an AI resume platform with ATS scoring, missing-skill detection, keyword optimization, job-role matching, and resume rewriting.
- Designed 10+ secured REST APIs with JWT for resume parsing, editing, analysis, and version management; modeled 4 MongoDB collections.
- Integrated OpenRouter LLMs to turn resume and job-description data into contextual, ATS-focused recommendations.

Council Hub | MongoDB, Express.js, React.js, Node.js, REST APIs

- Built a counselling platform connecting students and counsellors through registration, appointment booking, records, and role-based workflows.
- Implemented role-based authorization plus real-time chat and 1:1 audio/video sessions for remote counselling.
- Designed MongoDB schemas and REST APIs across users, appointments, sessions, records, and messages.

AI-Powered Gen-Z Fashion E-Commerce Platform | React.js, Node.js, Express.js, MongoDB, Redux Toolkit, Cloudinary

- Built a MERN fashion storefront covering discovery, authentication, cart, checkout, order tracking, reviews, and admin workflows.
- Implemented Redux Toolkit state management, Cloudinary media handling, responsive React/Tailwind UI, and JWT-based authorization.
- Added an AI shopping assistant using LLM APIs for conversational product discovery and personalized recommendations.

TECHNICAL SKILLS

Languages: JavaScript, Python, Java, SQL

Frontend: React.js, HTML5, CSS3, Tailwind CSS, Redux Toolkit, React Router, Vite

Backend: Node.js, Express.js, REST APIs, JWT, Authentication, Authorization

Databases: MongoDB, Mongoose, MySQL

AI / Generative AI: LLM APIs, Prompt Engineering, RAG, AI Agents, LLM Integration, OpenAI API, Gemini API

Tools: Git, GitHub, Postman, Cloudinary, VS Code

Core Concepts: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks, Software Development

SOFT SKILLS

Leadership, Team Collaboration, Problem Solving, Communication, Adaptability

CERTIFICATIONS

- Back End Development and APIs — freeCodeCamp
- JavaScript Algorithms and Data Structures — freeCodeCamp
- Graphethon Certificate — Graphic Era Deemed to be University, 2025

ACHIEVEMENTS

- Graphethon — secured a Top 25 position among participants across India.
- Participated in multiple hackathons and technical competitions, building full-stack solutions under tight time constraints.
