Bhimtal, Uttarakhand, India | +91 9105131502 | joshipriyanshu125@gmail.com | linkedin.com/in/priyanshujoshi-215b85304 | github.com/joshipriyanshu125

SUMMARY

MERN Stack Developer and CS undergraduate who builds AI-powered, full-stack web applications end to end. Shipped an AI Resume Analyzer, a real-time **Council Hub**, and a Gen-Z e-commerce platform using React, Node.js, Express, and MongoDB — with authentication, role-based access, and LLM integration along the way. Currently deepening skills in Generative AI, prompt engineering, and RAG.

EDUCATION

Birla Institute of Applied Sciences

Bhimtal, India

Bachelor of Technology in Computer Science and Engineering — CGPA: 7.3/10

Expected 2027

Relevant Coursework: Data Structures & Algorithms, Database Management Systems, Operating Systems, Computer Networks, Object-Oriented Programming, Software Engineering

PROJECTS

AI Resume Analyzer & Resume Builder | React.js, Node.js, Express.js, MongoDB, OpenRouter, REST APIs

- Built an AI-powered resume platform that analyzes resumes against job descriptions and generates ATS-focused recommendations, with resume parsing, structured editing, and version management.
- Built AI features for ATS scoring, missing-skill detection, keyword optimization, job-role matching, and intelligent resume rewriting.
- Developed protected REST APIs (Node.js, Express.js, JWT) and designed MongoDB schemas for resumes, versions, analysis results, and user data.
- Integrated external LLM APIs to generate contextual resume improvements and professional recommendations.

Council Hub | MongoDB, Express.js, React.js, Node.js, REST APIs

- Built a full-stack counselling platform connecting students with counsellors through a structured digital workflow, with registration, authentication, and role-based access.
- Built appointment booking and scheduling, plus student records and counselling history management for structured record-keeping.
- Added real-time chat and audio/video counselling sessions, with integrated online meetings for remote accessibility.
- Designed MongoDB data models and Express.js REST APIs for users, appointments, sessions, records, and communication.

AI-Powered Gen-Z Fashion E-Commerce Platform | React.js, Node.js, Express.js, MongoDB, Redux Toolkit, Cloudinary, Generative AI

- Building an AI-powered e-commerce platform (MERN) with product discovery, authentication, cart, checkout, order tracking, reviews, and user management for Gen-Z users.
- Implemented JWT-based authentication and role-based authorization, with REST APIs for products, categories, users, orders, reviews, and admin operations.
- Implementing AI-powered shopping — conversational assistance, intelligent recommendations, and personalized discovery — via integrated LLM APIs.
- Built responsive interfaces with React.js, Tailwind CSS, and Redux Toolkit, with Cloudinary-based product image management and MongoDB/Mongoose data modeling.

TECHNICAL SKILLS

Languages: JavaScript, Python, Java, SQL

Frontend: React.js, HTML5, CSS3, Tailwind CSS, Redux Toolkit, React Router, Vite

Backend: Node.js, Express.js, REST APIs, JWT, Authentication, Authorization

Databases: MongoDB, Mongoose, MySQL

AI / Generative AI: LLM APIs, Prompt Engineering, RAG, AI Agents, LLM Integration, OpenAI API, Gemini API

Tools: Git, GitHub, Postman, Cloudinary, VS Code

Core Concepts: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks, Software Development

CERTIFICATIONS

- Back End Development and APIs — freeCodeCamp
- JavaScript Algorithms and Data Structures — freeCodeCamp
- Graphethon Certificate — Graphic Era Deemed to be University, 2025

ACHIEVEMENTS

- Graphethon Participant — secured a Top 25 position among participants across India.
- Participated in multiple hackathons and technical competitions, building full-stack solutions and collaborating effectively with teams under tight time constraints.

Languages: English, Hindi
